Calendar of Events

Wednesdays
September 16th, 23rd, and 30th

6:30pm-8:30pm

**Child Care Links
Conference Room**

When young children can not verbally communicate, they can become frustrated, which can lead to tantrums and challenging behavior. Sign Language lets children communicate what they want and need from their parents/caregivers.

Join **Cherida Gruenfeldt, Early Childhood Consultant/Coach** for a three-part series to learn Sign Language, and how to successfully integrate it into your home or Child Care Program.

- Hints on what your role is as a parent/caregiver
- Beginner and Intermediate signs
- Sign Language songs and finger plays
