

# Car Seat Safety!

## Car Seats Save Lives

Call to schedule  
an appointment  
**925.417.8733**

### Quick Tips:

1. Read the manual
2. Rear face to the max of your seat, or until at least age 2
3. Chest clip at armpit level
4. Pinch test to check for too much slack in harness
5. Install using latch or seat belt—seat should not move more than an inch
6. Never use outgrown, damaged or recalled seats
7. Clean straps with mild soap
8. No puffy coats
9. **Rear facing harness** position: at or below shoulders
10. **Forward facing harness** position: at or above shoulders

**It's the law!** California state law requires all drivers to protect young children with car seats and booster seats.

- Proper car seat installation may save your child's life!
- 70% of child safety seats are improperly installed.

**FREE Car Seat Installation Instruction** is offered by Certified Car Seat Safety Technicians. Guided instruction will offer hands-on experience on how to properly install child safety seats.
