

# California's Preschool Learning & Development System Seminar Series:

- CA Preschool Learning & Development Foundations
- CA Preschool Learning & Development Program Guidelines
- CA Preschool Learning & Curriculum Framework

## Quality Preschool Counts

The California Preschool Learning Foundations outline key knowledge and skills that most children can achieve when provided with the kinds of interactions, instruction, and environments that research has shown to promote early learning and development. The foundations can provide early childhood educators, parents, and the public with a clear understanding of the wide range of knowledge and skills that preschool children typically attain when given the benefits of a high-quality preschool program.

Seminars will cover key content from each volume:

- Volume 1: Preschool domains of social-emotional development, language and literacy, English-language development, and mathematics.
- Volume 2: Preschool domain areas of visual and performing arts, physical development, and health.
- Volume 3: Preschool domain areas of history–social science and science.
